

Ibad Ullah

• Data Analyst • ibadullah99@icloud.com • [Portfolio](#) • Pakistan, KPK

EXPERIENCE

Data Analyst

November 2018 – November 2022

- Collecting and cleaning data.
- Web scraping with python.
- Writing queries in SQL.
- Creating visualizations using Excel/Tableau.

Teaching, School/Collage

October 2017 – August 2018

- Teaching Math and Physics

Projects: [Click Here](#)

- **Data Analysis and Visualization Project:** Exploring Performance Trends in the Pakistan Super League using Python, Excel, and Tableau.
- **Data Integration and Visualization Project:** Combining New York and San Francisco Datasets using BigQuery, Google Drive, and Tableau.

Python Project: [Click Here](#)

- Helped a cycling company convert casual riders to membership riders.
- Extracted data from various websites to analyze PSL matches from 2016 to 2022.
- Analyzed Netflix data to understand age recommendations, country preferences, and genre popularity.
- Conducted an analysis of data science salaries.
- Represented European soccer data using visual statistics.

SQL Projects: [Click Here](#)

- Created a database and performed data modeling to enhance the services of a Bus Rapid Transport (BRT) system in Peshawar.
- Cleaned a dataset of Bangalore house prices for prediction of Houses Prices.
- Finding Insights, Cleaning and Exploring New York Bike City Datasets using BigQuery.
- Exploring Google Trends using BigQuery.
- Analyzed data from a European soccer database.

Tableau Projects: [Click Here](#)

- Created a dashboard to analyze Berkshire Hathaway Holdings from 1994 to 2022.
- RFM Analysis E-Commerce Customers-Sales Record.
- Regional and Sub-Regional Year-over-Year Performance Comparison Dashboard.
- Compensation Analysis for firm: A Comparative Study of Employee Pay.

Skills

- Strong proficiency in Microsoft Excel and Google Sheets.
- Experience with SQL (DDL, DQL, DML).
- Proficient in Power BI and Tableau.

- Strong knowledge of Python (Pandas, NumPy, Matplotlib, Seaborn).
- Experience with data wrangling, data manipulation, and data visualization.
- Skilled in exploratory data analysis and data mining.
- Proficient in data-driven decision making and ETL.
- Familiarity with Git and GitHub.

Certificates

- Google Data Analytics (Coursera)
- Google Business Intelligence Professional (Coursera)
- Excel/VBA for Creative Problem-Solving Specialization (Coursera)
- Data Analyst with Python (Datacamp)
- MYSQL (Hacker Rank)
- PostgreSQL (Datacamp)
- Professional Data Analyst (Datacamp)
- Tableau (Great Learning)

Education

MS in Electrical Power Engineering from UET Peshawar
(Mar 2019 - Nov 2022)
GPA 3.15/4
